

Sensory PDX: Sensory Processing Dysfunction: A Brief Review of Current Evidence

Do you want to learn more about the research associated with Sensory Processing Disorder?

Please join us as Lisa Porter, MOT/OTR/L, shares what the neurological and other physiological evidence says about the existence of Sensory Processing Disorder (SPD).

At this free workshop, Lisa will:

- Review evidence examining deficits in participation and function for children with SPD
- Explore links between SPD, anxiety, and other social-emotional delays
- Review evidence-based treatment for sensory-related dysfunction

Lisa Porter is an Occupational Therapist, PhD candidate, and Owner/ Director of Sensory KIDS. She is certified in Sensory Integration, Integrated Listening Systems, Yoga Calm, SOS Feeding Approach, and DIR/ Floortime. Lisa is passionate about building relationships with her clients and families, as well as treating children from a developmental frame of reference.
