# INTAKE AGREEMENT

---

Sensory KIDS, LLC is an occupational therapy clinic specializing in sensory- and regulation-based interventions for clients of all ages. Our therapists are highly trained in sensory- and relationship-based approaches. Treatment at Sensory KIDS, LLC emphasizes client and caregiver education, emotion and arousal regulation, and offers a dynamic approach to recognizing your strengths, sensory differences, and nervous system regulation capacities.

Following the initial evaluation, a feedback meeting will be scheduled to review evaluation results, discuss goals, and establish a treatment plan. We will also work with your primary care provider to coordinate your care. A treatment schedule will be determined based upon the recommendations and availability of the evaluating therapist, as well as your availability.

**We require information from each client in order to begin providing care. Please complete the following forms to the best of your availability, notating any areas with “n/a” if information is not applicable.**

Each insurance provider will have different guidelines and limitations of coverage for Occupational Therapy. If you would like to bill insurance, please provide us with the appropriate insurance information. As a courtesy, Sensory KIDS will verify insurance eligibility and benefits before services are rendered. A document detailing an estimate of coverage for Occupational Therapy services will be sent to you for review. Since this information is only an estimate, we strongly suggest that you contact your insurance representative if there are any questions regarding coverage details.

If you are enrolled in OHP, an authorization is required for occupational therapy services following the initial evaluation. Our office will submit this authorization on your behalf. **OHP clients must provide our office with a PCP referral to keep on file before services are rendered.** Many commercial insurance plans require a prior authorization or PCP referral for Adult Occupational Therapy services. If this is the case, you will be notified upon the initial verification of insurance eligibility and benefits. Additionally, some commercial insurance providers may have an age limit on occupational therapy services, that being 17 years old. If your insurance provider does not pay for occupational therapy services as a result, or if we are not contracted with your insurance provider, Sensory KIDS does offer private pay options and various payment plans. A detailed overview of our service costs is included in this packet.

Sensory KIDS values feedback and asks that you inform our office of anything we can do better so we can ensure the highest quality of care possible.

We look forward to the opportunity to work with you. Please notify our office if you have any questions. Intake forms can be returned to our office in person, via email at [info@sensorykidsot.com](mailto:info@sensorykidsot.com), by mail, or by fax at 888-769-4431. Please note that additional policy and release forms will be signed at you initial evaluation appointment.

**By signing below, I have read and understand the Client Agreement.**
